**LEE & WHITE CONSULTANTS INTRODUCES AN EXCLUSIVE AND UNIQUE
FUSION OF LEGAL AND INFORMATION TECHNOLOGY ADVISORY
SERVICES FOR BUSINESSES**

Brugge, Belgium, July 26 – Lee & White Consultants bvba announced today the inception of its Company and the commencement of its business from Brugge, Belgium. Lee & White Consultants is a cyberspace law and information technology consultancy providing specialized legal and information technology aid and advice to businesses. Lee & White Consultants aims to create awareness for the ever-changing legal landscape of a company's virtual presence and the legal implications surrounding their information technology base.

“As virtual presence and the need for up-to-date technology become ambitiously sought after by most businesses today, we are here to ensure that these businesses are provided with the assistance for technological update and the legal assurance that must go along with it. Businesses must ensure compliance with recent changes in information technology and internet law in their pursuit for virtual presence and technological advancement“ says Irina Krishnan, President and CEO of Lee & White Consultants. “We are a new kind of advisory who understands both information technology and the law surrounding it.”
